## CLANWILLIAM IN SPRING

Shaunagh Emanuel studied art at school, and although she followed a career in medicine that left little time for drawing, she has found a way of combining the disciplines through illustrations in medicine. She creates the graphics for medical educational material, articles, presentations and information sheets. She enjoys being able to simplify complex concepts and present them as accessible images to enhance the understanding and enjoyment of medical material.

The appearance of advertising in SA Medical Association publications is neither a guarantee nor an endorsement of the products or the claims made about the products by the manufacturer.
